## **HORIZON-CL6-2021-GOVERNANCE-01-24: Supporting knowledge exchange between all AKIS actors in the Member States by means of an EU-wide interactive knowledge reservoir**

Expected Outcome: In support of the Green Deal, CAP and farm to fork objectives and targets, the successful proposal will focus on appropriate governance to interlink Agriculture Knowledge and Innovation System (AKIS)<sup>450</sup> actors and connect them with practice-oriented information derived from different sources that are readily available. The expected outcome of this topic is to develop sound AKIS governance in Member States. Member States' authorities and AKIS actors need insights and tools to advance knowledge exchange, build capacities. Innovative governance solutions should accelerate the transition to a more sustainable management and use of natural resources in farming and forestry. This will lead to better informed and engaged stakeholders and users of innovative project results thanks to effective AKIS and related platforms.

## 02 WHY we create EU-FarmBook?

## 02 WHY EU-FarmBook?

# EU-Policy on Agriculture

- **CAP** (Common Agricultural Policy, since 1962)  
aim: enough food in EU and income for the farmers.
- **Green Deal** (launched in December 2019)  
aim: EU becomes climate neutral by the year 2050

Green Deal > **Farm to Fork + Forest Strategy for 2030**

- **EU Biodiversity Strategy**

## Member States Policy

on agriculture and forestry

- CAP > each member state translates the CAP in a **CAP Strategic Plan on national or regional level**
- In the CAP Strategic Plan 2023-2027 of each member state there is a chapter on **'knowledge sharing, innovation and digitalisation'**

**EU = law-making + knowledge-making**

## From knowledge creation to knowledge flow ...

EU-FarmBook is for each Member State and for each AKIS actor a **strategic tool** to improve knowledge sharing, innovation and digitalisation

EU-FarmBook helps AKIS actors to realise the European ambitions

# Dedicated project page

A screenshot of the EU-FarmBook platform showing a dedicated project page for "NUTRI-KNOW". The page includes a search bar, navigation links (About, Support, Topics), and a login/signup section. The main content area displays project details: Coordinator (None), Project Type (None), Country (None), Grant ID (10.3030/101086524), Start Date (2023-01-01), and End Date (2025-12-31). Below this, a "Project contributions" section lists two items: "OG RENURE: Agronomic performance of manure-derived ammonium salts as RENURE fertilisers" and "OG\_Pocketboer II: Tips & tricks van en voor pocketboeren". Each contribution has a preview, a document icon, a date (31-08-2023 and 02-07-2021), the project name (NUTRI-KNOW), and a list of tags (e.g., processing technologies, fertiliser production, application, stripping and scrubbing, anaerobic digestion, pocket digestion, biogas).

## 04 Call for action

3. **Facilitate** the implementation and strengthening of **EU-FarmBook** as a strategic instrument for improving knowledge sharing, innovation and digitalisation on regional, national and EU level

EU-FarmBook helps realising the EU and Member States goals in general but EU-FarmBook helps also individual farmers and foresters in your Member State to become, year after year, a more sustainable entrepreneur.

4. One way to strengthening EU-FB is facilitating the **cooperation** with other platforms that already exist on regional, national or EU level like

- ✓ Groen Kennisnet (The Netherlands)
- ✓ Rd-Agri and Ecophytopic (France), Innovaruale (Italy), AKIS Advisors Platform
- ✓ AKISConnect Platform (modernAKIS and ATTRACTIS)

**EU-FarmBook**

Supported by EU-FarmBook  
the point of reference for  
farmers, foresters and advisors

**Cooperation** between all relevant platforms makes us all bigger!  
  
We hope we can make a **strong and big EU-FarmBook platform/hub together**

**EU-FarmBook**
